millennium

A company founded

Good design brings continuity, function, and beauty to a living or working space, whether it's a 100-square-meters store or a rambling country estate. Choosing an interior designer can be scary we know. Relax. Millennium has the experience, connections and style to bring your vision to life – on schedule and on budget. At Millennium, our goal is to help you and your business become what you aspire to be. Traditional or Boho? Gothic or Art Deco? We'll guide you through the decisions, providing fresh options and then stand back while you choose your favorites. We pull it all together into a home or commercial space design that is beautiful, functional and uniquely yours

to raise the bar

"We love working with clients who share our passion for livable design and flawless execution. We will oversee your project from initial consultation to final installation. We don't rest until you're delighted because your dream is our mission."

Ahmed Shawky - Founder
